STRUCTURE

Made of two die-cast aluminium legs joined by an extruded aluminium profile. Legs are equipped with adjustable feet with anti-slip pad. Available finishes: Glossy White Snow, Carbon Glacè, Chromed, Glossy Black Nickel. Under-top structure made with metal profiles 40x20 mm, painted finish.

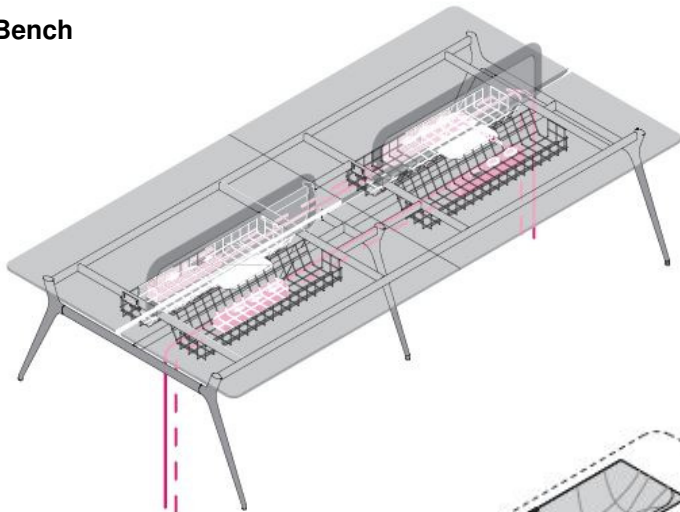

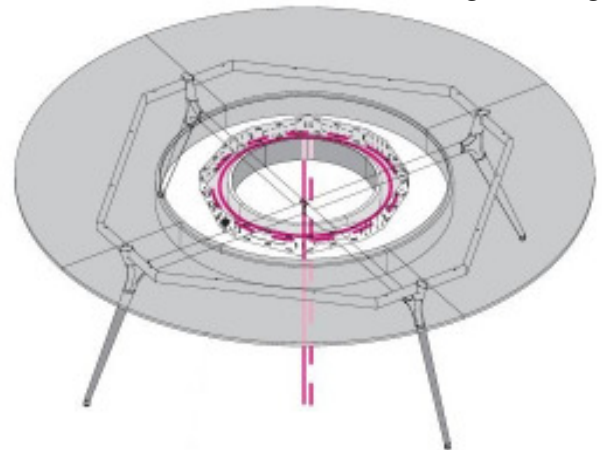

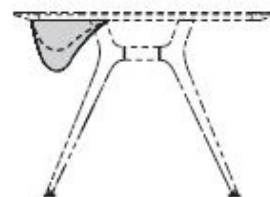

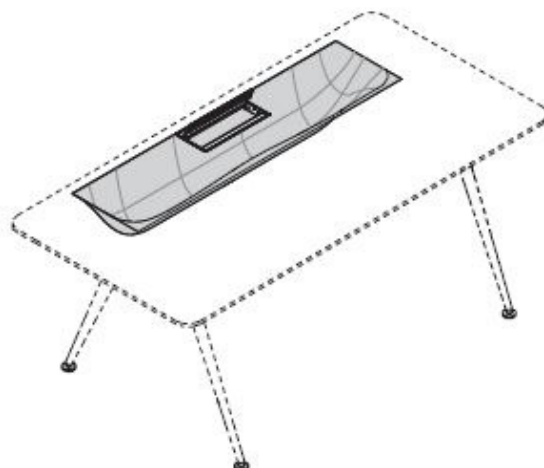

**ELECTRICAL CONNECTION**

Electrical connections is realized by means of metal mesh trays, painted finish. Cable trays and top access are supplied as standard on all benches.

Meeting-Sharing tables feature an open circular recess undertop in the central part of the table, in which up to 8 sockets can be installed (depending on dimensions).

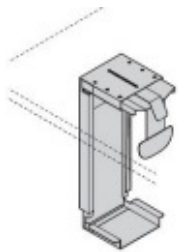

It's possible to integrate the single desk with an electrification system made of a «cornice» top access and a cable tray in thermoformed material, upholstered in fabric.

The cable tray has also the function of modesty panel.
