

Up

Design by Estel R&D

Up is a stool that oscillates slightly, allowing the body to freely lean and adjust while moving, while remaining standing. The adjustable height allows this stool to be paired with classic desks, sit-stand stations or on counters. The polyurethane seat is fabric-upholstered.

TECHNICAL FEATURES

Structure

Structure in nylon composed of a floor element with the insertion of an anti-slip rubber profile and of an upper part adjustable in height by gas lift.

Seat

Chair in flame-retardant polyurethane with density of 65 Kg/ cu.m. and upholstered in fabric.

Upholstery

Cat. 30, Chili, Fenice, Jet, King, Medley, Remix, Picto, One.

Mechanism

Seat height adjustment mechanism by gas lift inserted in the column of the stool with button integrated in the seat.

DIMENSIONS

Up, stool
